

N95/FFP2 Mask Production Line

RUHLAMAT AUTOMATED HEALTHCARE SOLUTIONS

The N95/FFP2 mask automation production line integrates mask forming, edge pressing, cutting, mask tape welding, nose clip loading and printing processes.

Automated ultrasonic equipment is used for mask forming and production, requiring 1-2 workers for an entire production line.

With whichever filter material you want to produce masks:

We have the solution for your needs.

MODULES

Example: N95/FFP2 certified mask with customized logo

MAIN SPECIFICATIONS

Dimension (LxWxH)	9700x1100x2200 mm
Capabilities	ca. 40 pcs/min
Voltage	400 V - 50/60 Hz
Power	10 kVA
Labor	1-2 Persons
Equipment Weight	~2,500 kg
Driving Mode	Servo driven
Controlling Mode	PLC Siemens
Processing Mode	Ultrasonic welding
Certification	CE
