We provide ruhlatmat machine concepts as **customer-specific individual productions**, proven standard modules or turn-key complete solutions. Our assembly machines are used for:

NEW DRIVE TECHNOLOGIES

CONSUMER GOODS

DIGITALIZATION & INDUSTRY 4.0

Digitalization and Industry 4.0 are no longer just buzzwords. More and more, a **digital and smart way of working is also becoming established in industry**. Contact us and benefit from our digital possibilities already in the concept phase.

Get fast remote support with Virtual Assist.

Keep your manufacturing figures at a glance with
ShopWorx.

Benefit from virtual commissioning with your
Digital Twin.

SERVICE

We accompany our customer not only during the implementation of a project, but also after completion. In each phase we focus on the achievement of your individual aims.

Hotline

Qualified and experienced service personnel are on hand to help and assist you with all of your questions on the ruhlatmat hotline.

Training

With the focus on availability, we offer sophisticated training programmes covering a variety of topics.

Spare Parts

Replacement parts with manufacturer quality form the basis for a safe and fault-free production process.

Remote Support

Remote support creates a data exchange between your automation systems and our tech-support should a malfunction occur.

Upgrades

Changes with respect to the use of materials and production processes can result during the life cycle of your specialized machine.

Service Contract

Shape your service contract individually based on your needs. Also benefit from low prices and faster response times with our service contract.

Field Service

Our qualified specialists provide assistance with your production, especially during the start-up phase of a new machine.

Maintenance

Seamless processes and trouble-free production are ensured by regular service and maintenance.
