INDIVIDUAL SOLUTIONS

## INDUSTRIES & MARKETS

We provide ruhlmat machine concepts as **customer-specific individual productions**, proven standard modules or turn-key complete solutions. Our assembly machines are used for:

AUTOMOTIVE

HEALTHCARE

NEW DRIVE TECHNOLOGIES

CONSUMER GOODS

## DIGITALIZATION & INDUSTRY 4.0

Digitalization and Industry 4.0 are no longer just buzzwords. More and more, a **digital and smart way of working is also becoming established in industry**. Contact us and benefit from our digital possibilities already in the concept phase.

Get fast remote support with Virtual Assist.

Keep your manufacturing figures at a glance with

digital solutions for your needs.

Benefit from virtual commissioning with your Digital Twin.

## SERVICE

We accompany our customer not only during the implementation of a project, but also after completion. In each phase we focus on the achievement of your individual aims.

### Hotline

Qualified and experienced service personnel are on hand to help and assist you with all of your questions on the ruhlmat hotline.

### Training

With the focus on availability, we offer you sophisticated training programmes covering a variety of topics.

### Spare Parts

Replacement parts with manufacturer quality form the basis for a safe and fault-free production process.

### Remote Support

Remote support creates a data exchange between your automation systems and our tech-support should a malfunction occur.

### Upgrades

Changes with respect to the use of materials and production processes can result during the life cycle of your specialized machine.

### Service Contract

Shape your service contract individually based on your needs. Also benefit from low prices and faster response times with our service contract.

### Field Service

Our qualified specialists provide assistance with your production, especially during the start-up phase of a new machine.

### Maintenance

Seamless processes and trouble-free production are ensured by regular service and maintenance.
